PRINCIPAL'S MESSAGE

Encourage Your Kids to be Problem Solvers

When parents solve all children's problems we not only increase their dependency on adults but we teach kids to be afraid of making mistakes and to blame themselves for not being good enough. That's fertile ground for anxiety and depressive illness.

So, how can we raise kids to be courageous problem-solvers rather than self-critical scaredy cats? Here are six practical ideas to get you started.

1. Turn requests into problems for kids to solve.
2. Ask good questions to prompt problem-solving.
3. Coach them through problems and concerns.
4. Prepare kids for problems and contingencies.
5. Show a little faith.
6. Applaud mistakes and stuff-ups.
